The Three-Part Seminar

About 3.5 hours with breaks • participant workbook included

1

Walking in the Desert

Leading through dry seasons.

Burnout, stress, and setbacks are part of serving the public. How leaders keep their purpose, and their people, when the work gets hard.

2

Courageous Nobility

Character is the job.

Doing the right thing when it costs you. Leading by example, holding the line on standards, and serving the people you lead.

3

Finishing the Bridge

Finish what you start.

Seeing the person in front of you, not the problem. Turning daily service into lasting impact, and finishing your career, and your mission, strong.
